Workshop Programme

8.30:9.00 Welcome, Participants Introduction and Overview from the Chairs

9.00:9.20 The Effects of Rationale Awareness in Iterative Human Computation Processes (Research Paper)
Lu Xiao
The University of Western Ontario

9.20:9.40 Supporting Collective Intelligence through a Recursive Annotation Tool (Research Paper)
Federico Cabitza, Marco P. Locatelli, Carla Simone
University of Milano-Bicocca

9.40:10.00 Empowering the Middle Men: a Collaborative Innovation Platform (Research Paper)
Marcos Baez 1,2, Gregorio Convertino1,2, Arturo Mondragon1, Guillaume Bouchard2 and Cedric Archambau2
Palo Alto Research Center1, Xerox Research Centre Europe2, University of Trento3

10.00:10.20 Is the Crowd Biased? Understanding Group Value Judgments in Open Contribution Systems (Research Paper)
Jahna Otterbacher and Libby Hemphill
Illinois Institute of Technology

10.20:10.40 Problems&Proposals: A Tool for Collecting Citizens Intelligence (Research Paper)
Fiorella De Cindio1, Ewa Krzata-Jaworska1, Leonardo Sonnante1
University of Milan1, Paris 1 - Sorbonne University2

10.40:11.10 coffee break

11.10:11.25 Challenges for the Facilitation of Political Discourse in Technologically-Mediated Environments (Position Paper)
Christopher M. Mascaro1, Elizabeth A. Thiry2, Sean P. Goggins1
Drexel University1, Pennsylvania State University2

11.25:11.40 Launching a Civic Intelligence Forum (Position Paper)
Douglas Schuler
Public Sphere Project

11.40:11.55 Enhancing Collective Intelligence by Enhancing Social Roles and Diversity (Position Paper)
John C. Thomas
IBM T. J. Watson Research

11.55:12.10 The Variable Geometry of Collective Intelligence (Position Paper)
Giorgio De Michelis
DISCo, University of Milano – Bicocca
13.30:13.45 A Discussion Dashboard for Collective Intelligence of Web Conversations (Position Paper)
Jodi Schneider, Alexandre Passant
DERI - National University of Ireland, Galway

13.45:14.00 Beyond Discussions: Designing for Sociability and Structure (Position Paper)
Kate Ehrlich¹, Steve Rohall¹, Steve Ross¹, Dan Gruen¹, Tristan Ratchford¹, John Patterson¹, Hironobu Takagi², Tatsuya Ishihara², Akihiro Kosugi²
IBM Research Cambridge MA¹, IBM Research Tokyo, Japan²

14.00:14.15 What Can We Ask of a Crowd: Correlates of Problem Difficulty in StackOverflow (Position Paper)
Ben Hanrahan², Les Nelson¹, Gregorio Convertino¹²
Palo Alto Research Center (PARC)¹, Xerox Research Centre Europe²

14.15:14.30 Visualizations of Social Media Communication (Position Paper)
Karissa McKelvey, Filippo Menczer
Indiana University

14.30:14.45 Is This What You Meant?: Supporting Active Listening and Grounding on the Web with Reflect (Demo)
Travis Kriplean, Michael Toomim, Jonathan T. Morgan, Alan Borning
University of Washington

14.45:15.00 Cohere and XIP: Combining Human and Machine Annotation to Develop Collective Intelligence (Demo)
Anna De Liddo¹, Ágnes Sándor² and Simon Buckingham Shum¹
The Open University (UK)¹, Xerox Research Centre Europe²

15.00:15.15 MIT Deliberatorium (Remote Presentation)
Mark Klein
MIT, Center for Collective Intelligence,
Cambridge Massachusetts, USA

15.15:15.45 coffee break

15.45:17.45 World Café
All Workshop participants

17.45:18.00 Concluding thoughts and follow on info from the Chairs
Anna De Liddo¹, Simon Buckingham Shum¹, Gregorio Convertino¹² and Ágnes Sándor².
The Open University (UK)¹, Xerox Research Centre Europe², Palo Alto Research Center (PARC)³

18.00 workshop end

19.00 workshop dinner (location to be announced on the workshop day)
