

Where, what, how big and which way is it pointing?

Your name	
email address	
Location: <i>partial</i> postcode or latitude/longitude	
Technologies installed (kWp) (Solar PV, Solar thermal, Heat pump, wind, other)	

<i>Photovoltaic (PV)</i>	
Installed capacity in kWp	
Number of panels	
Power per panel (watts)	
Panels manufacturer/make	
Inverter make, model number and rating	
Orientation of array (east, south, west, etc)	
Elevation/slope angle, aka "pitch", in degrees (measured from the horizontal)	
Grid connected yes/no?	
Do you already send data to an on-line repository?	

<i>Solar thermal</i>	
Gross area of collector(s)	
Flat panel or evacuated tubes?	
Number of panels/tubes	
Gross area of collector (if applicable)	
Orientation of roof (e.g. 180° = South)	
Elevation/slope angle (e.g. 35°, measured from the horizontal)	
Manufacturer/make	
Make and type of controller (e.g. Resol CS)	
Do you already send data to an on-line repository?	

<i>Other technologies e.g. ground source heat pump (GSHP), wind et cetera</i>	
Gross area of collector	
Ground/air/water sourced	
Installed capacity/power rating	
Heat pump COP	
SPF	
Manufacturer/make	
Do you already send data to an on-line repository?
